Director Pack noted that the commission has reviewed this information but shared the proposed substantive changes to the contracts for the record. Changes include offering multiple contract options (traditional only, video only, other Lottery games only and a combination); specification that a retailer cannot grant a security interest in Lottery proceeds to a third party; the requirement to provide and monitor a working email address; modifying the compliance with laws so Lottery can contract with businesses that sell CBD products; and expanding the responsible gaming training requirements to any employee that sells or facilitates play of Lottery games.
Chair Saathoff explained that Lottery and the Lottery Commission have been working on this for at least a year. Chair Saathoff commended the staff for allowing the commission numerous work sessions, public hearings and allowing the commissioners the time to have their questions answered and to feel prepared for today’s vote. Chair Saathoff thanked the staff for all of the hard work and also thanked the commissioners for their extreme diligence, noting that the commission has done a great job of meeting its obligation to the Lottery and the State to take the time needed and come to the decisions it has come to.

– Commissioner Valdivia commended everyone that participated in this process and noted that there is a fine balance with making these decisions and the relationship between the Lottery and the retailers. Commissioner Valdivia noted that he appreciates Director Pack for making the best effort to maintain that relationship and keep everyone’s best interests in mind.

Director Pack shared the proposed Video Lottery dollars-played commission structure, the impact across the tiers of retailers, a breakdown of the current Video Lottery retailer base, and the impact of potential changes resulting from the proposed commission structure.

H. RULEMAKING

Presenter: Kris Skaro, rules and policy analyst

OAR 177-010, 177-046, 177-091 and 177-092, Scoreboard, Exhibit 7

Skaro noted that there were temporary rules adopted in October 2019 that amended current rules and adopted new rules to reflect digital play generally, adopted a new division of rules to govern Scoreboard specifically, and suspended the division for an obsolete game of the same name. The proposed permanent rules are very similar to the temporary rules and include no major policy changes, only edits to improve readability and clarity on policies. Skaro provided information about the permanent rulemaking process and noted that the rule will be brought to the commission for consideration in March.

OAR 177-040-0017, Additional Video Lottery Retailer Application Requirements and Lottery Authority to Prevent and Resolve Concentration, Exhibit 7

Skaro provided a summary of the rule change and the rulemaking process. The current rule is invalid on a technicality and needs to be readopted to ensure Lottery has the authority to enforce the casino and concentration prohibitions. Skaro noted that more information will be provided as the rulemaking process progresses.

– Chair Saathoff clarified why the rule is invalid and confirmed that there was not a substantive issue with the rule.
– Commissioner Telfer asked if there are criteria in place to determine that an applicant has a viable business. Director Pack noted that part of the application process is to ensure that prospective retailers have the structure in place to be able to meet the requirements of the contract and the casino prohibition rule.
– Chair Saathoff asked if the Director has the final decision-making authority when it comes to viability and Skaro replied that it is the Director or the Director’s designee.
– Director Pack will follow up with commissioners on the specific rule changes related to viability when businesses change ownership.
– Commissioner Wilcox inquired if there was a problem with a concentration in the past and Director Pack replied that there was an issue in the past.
I. **STAFF UPDATES**

**Presenters:** Roger Carpenter, senior internal auditor; Jesse Enright, retail compliance analyst; and Kathy Stromberg, chief corporate affairs officer

**Retailer compliance review update**

Enright described key provisions of the Casino Prohibition Rule and noted that the focus of the Retail Contracts compliance review is on limited menu and café/small eatery retailers. Enright shared the importance of this segment of retailers to Lottery’s business. Each limited menu retailer and café/small eatery is assessed every year and includes the retailer completing an annual sales analysis, site inspections and review of business records, if data appears inaccurate. Enright presented a summary of the results of the reviews and follow-up reviews.

- Chair Saathoff asked about the 52 percent of retailers reporting non-Lottery sales of less than 50 percent of total income and Enright replied that other factors, including appearance, food service accoutrements, advertising, etc., are looked at if that happens. Director Pack reminded the commission that if a retailer’s non-Lottery sales are less than the 50 percent threshold, it does not mean that the retailer is not in compliance, it is a trigger for further exploration.

Carpenter shared that the Internal Audit department is conducting reviews of all 281 limited menu and café/small eatery retailers over a five-year period. The reviews supplement the annual site inspections and analyses by Retail Contracts. Information about the objectives and scope, retailer ownership profiles, gross sales report accuracy, non-Lottery sales in gross sales reports, point of sale documentation, and the cost of sales documentation was also shared, along with recommendations for follow-up reviews.

- Chair Saathoff asked about the cost of sales documentation and inquired if Lottery staff are available to assist retailers throughout the year and Enright replied that he is available to assist as needed.

**Product updates**

Stromberg provided a gaming product performance update that included key drivers, strategies and sales reports for Video Lottery, Scratch-its, Keno, jackpot games that include Powerball, Mega Millions and Megabucks, and Scoreboard.

- Chair Saathoff asked clarifying questions about sales and transfers to the state.
- Chair Saathoff inquired about the Keno game and Stromberg noted that the Traditional Product team is reviewing to identify what can be done differently to increase profitability.
- Chair Saathoff appreciates the additional information about the forecasting, trends and strategies and what is actually happening.
- Commissioner Wilcox inquired if more people have been downloading the Scoreboard app since the Super Bowl is coming up and Stromberg noted that the rush will probably occur closer to game day.
J. OTHER BUSINESS

Director Pack mentioned that the short legislative session begins next week and noted that there are two bills related to Lottery; one being a prohibition on college sports wagering as part of Scoreboard and the other related to the types of games that can be offered on mobile devices. A detailed report will be provided at the next commission meeting.
