Any discrepancies with the published version are resolved in favor of the Administrative Order.

OREGON STATE LOTTERY

DIVISION 99

KENO

October 6, 2016

OAR 177-099-0000

Definitions

For the purposes of Keno, the following definitions apply except as otherwise specifically provided in OAR Chapter 177 or unless the context requires otherwise:

(1) **“Exchange ticket”** means a computer-generated, printed paper issued by a terminal to replace a game ticket that had been purchased for play in multiple drawings and was validated before the latest drawing appearing on the game ticket. An exchange ticket shall contain the exact game play and future drawing dates appearing on the validated game ticket it is replacing and shall have all other characteristics of a game ticket except as otherwise stated in these rules. An exchange ticket shall not contain a ticket price.

(2) **“Game play”** means the number or group of numbers appearing on a ticket for a particular spot which is compared to the winning numbers, selected at the drawings appearing on the ticket, to determine the prize payment for which the ticket may be redeemed.

(3) **“Game slip”** or **“play slip”** means a paper form used by a player to select a game play, that indicates the amount the player will play on the ticket containing the game play, the number of drawings in which the ticket will be played, the choice to play the Special Keno option, the choice to select the Keno Multiplier option, and the choice to select the Keno To Go option. Only one game play may be marked on each game slip.

(4) **“Game ticket”** or **“ticket”** means a computer-generated, printed paper issued by a terminal as a receipt for the game play selected by a player and which contains the following: the caption “Keno”, one game play, the date of purchase, the number of consecutive drawings in which the ticket will be played, the identifying number for each such drawing, the price of the ticket, a six-digit retailer number, a serial number, and a bar code. If the player selects one or more Keno options, the game ticket will also contain:

(a) The phrase “Special Keno” if that option has been selected;

(b) The phrase “Keno Multiplier” if that option has been selected; and

(c) The hour on which a game or consecutive games will begin.

(5) **“Keno Multiplier”** means the Keno and Special Keno play option whereby a player, by paying an additional one dollar for each dollar wagered on a Keno or Special Keno game play, may be entitled to receive a larger prize for correctly selecting winning numbers. Keno Multiplier multiplies the amount of certain prizes won in a game play. Keno Multiplier is an optional, limited extension of the Keno and Special Keno game.

(6) **“Keno To Go”** means a play option which permits a player to purchase a ticket or tickets for a future Keno drawing or future consecutive Keno drawings as permitted by the Lottery.

(7) **“Prize category”** means each row indicating the number of correct spots a player may select for each game drawing with a corresponding prize amount as shown on the payout charts contained in these rules.

(8) **“Quick Pick”** means the random selection of numbers by a terminal that appear as the game play on a ticket.

(9) **“Special Keno”** means an optional variation of the Keno prize payment and odds structure as defined in OAR 177-099-0090 which may be selected by the player.

(10) **“Spot”** means the amount of numbers a player may play for a game play. A player may play from one spot, i.e., one number, to ten spots, i.e., ten different numbers.

(11) **“Draw game terminal”** or **“Terminal”** has the meaning set forth in OAR 177-070-0005(4).

(12) **“Winning numbers”** means the twenty numbers, from one to eighty, that are selected at each drawing that are used to determine winning game plays contained on the game tickets.

OAR 177-099-0010 Game Description

Keno is a 20/80 Lottery game with set prize amounts. For each drawing, a player may choose to play from one to ten spots and a corresponding selection of number choices from one to eighty. That is the player's game play. The Lottery then selects twenty winning numbers from one to eighty. The Lottery awards prizes based on the extent to which the game play appearing on a player's ticket matches the winning numbers in a drawing for which the player's ticket was purchased.

OAR 177-099-0015 Keno To Go

(1) **General:** Beginning August 30, 2011 at 5:00 a.m., Lottery may permit a player to purchase a Keno ticket for a future drawing or for future, multiple, consecutive drawings as permitted by the Lottery. To purchase a Keno ticket for a future drawing or for future, multiple, consecutive drawings, a player must select the Keno To Go option on the Keno play slip and mark the appropriate boxes on the play slip. There is no additional charge for the Keno To Go option.

(2) **Disclaimer:** The Director, in the Director's sole discretion, is authorized to initiate and terminate the Keno To Go option.

OAR 177-099-0020 Price

(1) **General:** The price of a ticket is determined by the amount of money a player chooses to play on the game plays selected, multiplied by the number of drawings in which the ticket will be played. A player may also choose the Keno Multiplier option that will increase the cost of the ticket by \$1.00 for every \$1.00 wagered.

(2) **Number of Drawings:** A ticket may be purchased for one drawing or for multiple, consecutive drawings.

(a) A player may purchase a ticket for a single drawing for \$1.00 to \$5.00, in whole dollar amounts, \$10.00, or \$20.00.

(b) The price of a ticket for play in multiple, consecutive drawings is the price of a ticket for a single drawing, ranging from \$1.00 to \$5.00, \$10.00 or \$20.00 as selected by the player, multiplied by the number of consecutive drawings in which the ticket will be played.

(3) **Minimum Price:** The minimum ticket price for multiple, consecutive drawings is \$2.00 (\$1 x 2 consecutive drawings = \$2).

(4) **Maximum Price:** The maximum ticket price for any Keno ticket is \$100.00.

(5) **Multiple Drawings:** A ticket purchased for multiple, consecutive drawings is limited solely to the following options: 1, 2, 3, 4, 5, 10, 15, 20, 50, or 100 consecutive drawings so long as the price of a ticket does not exceed \$100.00.

(6) **Price with Options:** If a player adds the Keno Multiplier option to a Keno or Special Keno game play, the player may only play a maximum of 50 consecutive draws at \$2, for a total of \$100.

(7) **Rejected Game Slip:** A game slip indicating a price greater than \$100 is automatically rejected by the terminal.

OAR 177-099-0030 Ticket Purchase, Characteristics, and Restrictions

(1) (a) **General:** Keno tickets may be purchased every day of the year during the hours of operation of the Lottery's central computer system and a Lottery retailer's business hours.

(b) **Default:** A player may purchase a ticket for play under either the Keno prize structure set forth in OAR 177-099-0080, or the Special Keno prize structure set forth in

OAR 177-099-0090. If a player does not select the Special Keno option when purchasing a ticket, the ticket is played under the Keno prize structure.

(c) **Multiplier Option:** A player may purchase the Keno Multiplier option on any Keno or Special Keno game play as set forth in OAR 177-099-0020(6). If a player does not select the Keno Multiplier option when purchasing a ticket, the ticket is played under the Keno or Special Keno prize structure.

(d) **Keno To Go Option:** A player may select the Keno To Go option on any Keno or Special Keno game play. If a player does not select the Keno To Go option when purchasing a ticket, the ticket is valid for the next Keno drawing following the time of purchase and for the following consecutive drawings purchased on that ticket.

(2) (a) **Ticket Purchase:** Tickets may be purchased either from a terminal operated by a retailer, i.e., a clerk-operated terminal, or from a terminal operated by the player, i.e., a player-operated terminal. To play Keno, a player must complete a game slip for input into a terminal, request a Quick Pick from a clerk, or request a Quick Pick using a player-operated terminal.

(b) **Completing a Game Slip:** A player must choose a game play by one of two methods. A player may select from one to ten numbers from the eighty number choices contained on the game slip. Alternatively, the player may select the Quick Pick option. A player must also complete the selections on the game slip regarding the amount of money to be played on the ticket per drawing, and the number of multiple, consecutive drawings in which to play the ticket. The player may select any or all of the following options:

(A) The Special Keno option;

(B) The Keno Multiplier option; and

(C) The Keno To Go option.

(c) **Purchasing a Ticket from a Clerk-Operated Terminal:** After the player completes a game slip and submits it along with the price of the ticket to the clerk, the clerk shall use the terminal to issue a ticket to the player. The player may also request that a clerk, without using a game slip, electronically submit a request for a Quick Pick through the terminal with the player informing the clerk of the wager amount, the number of spots to be played, the Keno or Special Keno option, the Keno Multiplier option, the number of multiple, consecutive drawings to be played, the number of tickets, and whether the player wants the Keno To Go option.

(d) **Purchasing a Ticket from a Player-Operated Terminal:** A player may purchase a ticket from a player-operated terminal by following the instructions appearing on the screen of the terminal. Once the player has inserted the player's money into the

terminal, verified the player's age, completed the game slip and inserted it into the terminal, the terminal will issue a ticket to the player. The player may also request a Quick Pick without using a game slip by using the player-operated terminal. A player requesting a Quick Pick from a player-operated terminal without using a game slip must select the wager amount, the number of spots to be played, the Keno or Special Keno option, the Keno Multiplier option, the number of multiple, consecutive drawings to be played, the number of tickets, and whether the player wants the Keno To Go option.

OAR 177-099-0040 Cancellation of Tickets

A player may cancel a Keno ticket. To cancel a ticket, a player must follow the procedure in OAR 177-046-0060.

OAR 177-099-0050 Drawings

(1) **General:** Drawings shall take place at such times and upon such intervals as determined by the Director. Drawings shall normally take place at four minute intervals. The last drawing shall take place just prior to the deactivation of the Lottery's central computer system for the day.

(2) **Objective:** Each drawing randomly selects twenty numbers from a possible eighty numbers that are the winning numbers. The winning numbers selected at each drawing are generated through the use of a computer-driven random number generator.

(3) **Selection of the Keno Multiplier Number:** The Lottery will conduct a separate random Keno Multiplier drawing and announce the result prior to each of the regular Keno drawings by displaying the Keno Multiplier number on the Keno monitor immediately prior to each new Keno game drawn and after the previous game pool closes. During each random Keno Multiplier drawing, one number will be selected. The Keno Multiplier numbers available for selection are 1, 2, 3, 5, and 10. The Keno Multiplier number selected at each drawing is generated through the use of a computer-driven random number generator in accordance with the provisions of OAR 177-046-0080.

OAR 177-099-0060 Ticket Validation Requirements

(1) For a ticket to be valid and eligible to receive prize payment, the ticket must be validated in accordance with the provisions of OAR Chapter 177.

(2) A game ticket containing a winning game play and purchased for play in multiple, consecutive drawings may be validated prior to the occurrence of future drawings for which the game ticket was purchased. An exchange ticket is issued, at the time the original game ticket is validated, for the remainder of the drawings appearing on the validated game ticket.

OAR 177-099-0080 Keno Prizes

Section (1) of this rule specifies prizes for Keno drawings.

(1) **Prize Structure:** Prizes for each drawing are determined and awarded based on how many numbers contained in a game play on a ticket match the winning numbers selected at that drawing. Prizes are determined separately for each spot category. Prizes per one dollar wagered, based upon potential sales of \$8,911,711.18 per drawing, are as follows:

Keno 65% Payout				
MARK 10 SPOTS				
Number Correct	Odds 1:	# In Pool	Total Amount of Prizes	Each Prize

Overall Payout Percent 64.90%

(2) **Amount Wagered:** Keno prizes multiply according to the amount played per drawing. Except as provided in OAR 177-099-0100, the highest potential prize for any Keno ticket is \$1,000,000 per drawing. If a ticket shows a wager of 2, 3, 4, 5, 10, or 20 dollars per drawing on a winning game play, the prize shown above for a \$1 wager shall multiply, up to \$1,000,000, according to the wager amount shown on the winning ticket. For example, if a ticket shows a \$5 wager on the 8 spot category and the game play on the ticket matches 8 out of 8 of the winning numbers, the prize associated with that ticket is \$15,000 x \$5 = \$75,000. All Keno prizes for a prize category are capped at \$1,000,000 and certain Keno prizes will become pari-mutuel in accordance with section (4) of this rule. However, Jackpot Bonus prizes awarded are in addition to the \$1,000,000 prize.

(3) **Lump Sum Payment:** All prizes are paid in one lump sum.

(4) **Limitation on \$1,000,000 Keno Prize:** When the total amount won for the 10/10, 9/10, 9/9, 8/8, and the 7/7 prize categories in the same game play in a single drawing reaches or exceeds \$1,000,000 in the prize category, the maximum prize amount of \$1,000,000 becomes pari-mutuel and the prize shall be divided among the number of winning tickets for that game play on a pro-rata basis determined by the amount that each winning ticket played in the drawing in which the prize was won.

(a) **Example:** For example, if one Keno ticket wins the top prize for the 10/10 spot (\$200,000) in a drawing, and the player wagered \$20, and one Keno ticket wins the top prize for the 10/10 spot (\$200,000) in the same game play in the same drawing, and another player wagered \$5, the first player would receive 80% of the \$1,000,000 prize (based on \$20 wagered) and the second player would receive 20% of the \$1,000,000 prize (based on \$5 wagered).

(5) **Breakage:** If there are multiple winners in a single drawing such that the prize for a prize category cannot be divided among the winners to a whole cent, the prize payments may be rounded down so that the prize may be divided and paid to the nearest whole cent to each winner. Breakage from rounding the prize shall be treated as an unclaimed prize by the Lottery.

(a) **Example:** If there are seven \$1,000,000 prize winning tickets in a single drawing for the same game play, the amount paid to each winner is calculated by dividing 7 into \$1,000,000 which equals \$142,857.14285.... The Lottery shall round that amount down to \$142,857.14 which totals \$999,999.98 paid to the seven winners. The breakage of two cents shall then be treated as an unclaimed prize.

(6) **Highest Single Prize:** For each drawing, a player may receive (subject to the validation requirements set forth in OAR 177-099-0060) only the highest single prize for which a ticket containing a winning game play is eligible.

(7) **Claiming Prizes:** Prize payments must be claimed, and are made, in accordance with the provisions of OAR 177-070-0025.

OAR 177-099-0090

Special Keno Prizes

(1) **General:** Special Keno increases the size of the prizes at the upper tier levels, and eliminates some prizes at the lower tiers of the prize structure when compared to the Keno prize structure.

(2) **Selection of Option:** As described in OAR 177-099-0030, a player must indicate the player’s choice to play under the Special Keno prize structure. When the Special Keno prize option is designated on a ticket, the Keno prizes described in OAR 177-099-0080 are no longer applicable.

(3) **Prize Structure:** Prizes for each drawing are determined and awarded based on how many numbers contained in a game play on a ticket match the winning numbers selected at that drawing. Prizes are determined separately for each spot category. Prizes per one dollar wagered, based upon potential sales of \$8,911,711.18 per drawing, are as follows:

Special Keno

(4) **Amount Wagered:** Special Keno prizes multiply according to the amount played per drawing. Except as provided in OAR 177-099-0100, the highest potential prize for a Special Keno ticket is \$1,000,000 per drawing. If a ticket shows a wager of 2, 3, 4, 5, 10, or 20 dollars per drawing on a winning game play, the prize shown above for a \$1 wager shall multiply, up to \$1,000,000, according to the wager amount shown on the winning ticket. For example, if a ticket shows a \$5 wager on the 8 spot category and the game play on the ticket matches 8 out of 8 of the winning numbers, the prize associated with that ticket is \$25,000 x \$5 = \$125,000. . All Special Keno prizes for a prize category are capped at \$1,000,000, and certain Special Keno prizes will become pari-mutuel in accordance with section (6) of this rule. However, Jackpot Bonus prizes awarded are in addition to the \$1,000,000 prize.

(5) **Lump Sum Payment:** A prize-winning player is paid in one lump sum for all prizes.

(6) **Limitation of \$1,000,000 Special Keno Prizes:** When the total amount won for the 10/10, 9/10, 9/9, 8/8, and the 7/7 prize categories in the same game play in a single drawing reaches or exceeds \$1,000,000 in the prize category, the maximum prize amount of \$1,000,000 becomes pari-mutuel and the prize shall be divided among the number of winning tickets for that game play on a pro-rata basis determined by the amount that each winning ticket played in the drawing in which the prize was won.

(a) **Example:** For example, if one Special Keno ticket wins the top prize for the 10/10 spot (\$1,000,000) in a drawing, and the player wagered \$20, and one Special Keno ticket wins the top prize for the 10/10 spot (\$1,000,000) in the same game play in the same drawing, and another player wagered \$5, the first player would receive 80% of the \$1,000,000 prize (based on \$20 wagered) and the second player would receive 20% of the \$1,000,000 prize (based on \$5 wagered).

(7) **Breakage:** If there are multiple winners in a single drawing such that the prize for a prize category cannot be divided among the winners to a whole cent, the prize payments may be rounded down so that the prize may be divided and paid to the nearest whole cent to each winner. Breakage from rounding the prize shall be treated as an unclaimed prize by the Lottery.

(a) **Example:** If there are seven \$1,000,000 prize winning tickets in a single drawing for the same game play, the amount paid to each winner is calculated by dividing 7 into \$1,000,000 which equals \$142,857.14285.... The Lottery shall round that amount down

to \$142,857.14 which totals \$999,999.98 paid to the seven winners. The breakage of two cents shall then be treated as an unclaimed prize.

(8) **Highest Single Prize:** For each drawing, a player may receive (subject to the validation requirements set forth in OAR 177-099-0060) only the highest single prize for which a ticket containing a winning game play is eligible.

(9) **Claiming Prizes:** Prize payments must be claimed, and are made, in accordance with the provisions of OAR 177-070-0025.

OAR 177-099-0095 Keno Multiplier Option

(1) **General:** When the Keno Multiplier option is selected on a winning Keno or Special Keno game ticket, the prize amount is multiplied by the Keno Multiplier number. The Keno Multiplier number (1, 2, 3, 5, or 10) is randomly selected prior to each drawing.

(2) **Probability:** The following table sets forth the probability of the various Keno Multiplier numbers being selected during a single Keno Multiplier drawing:

Multiplier Number	Percent Drawn
1	45.0%
2	28.3%
3	16.0%
5	9.7%
10	1.0%
TOTAL	100%

(3) **Applicability:** A prize multiplied by the Keno Multiplier is subject to all Keno or Special Keno rules applicable to the particular prize won. The Keno Multiplier does not apply to the Keno Jackpot Bonus prizes.

(4) **Director's Authority:** The Director, in the Director's sole discretion, is authorized to initiate and terminate the Keno Multiplier option.

OAR 177-099-0100 Keno Jackpot Bonus Prizes

(1) **General:**

(a) **Jackpot Bonus Prizes:** In addition to the prizes described in OAR 177-099-0080 and 177-099-0090, the Director may designate additional prizes for some or all of the Keno spot games. The Director may change this designation at any time. When the Director designates a spot game as eligible for such a prize, the Director shall determine the percentage of gross Keno sales (excluding sales of the Keno Multiplier option) to be

allocated to a prize pool held in reserve as an additional prize for winners of the top prize in the designated spot game. A prize awarded from one of these prize pools is called a Jackpot Bonus prize. A Jackpot Bonus prize is awarded when a ticket wins the top prize for the designated spot under OAR 177-099-0080 or OAR 177-099-0090. If the Jackpot Bonus prize pool for a specific spot is not won, the Jackpot Bonus prize pool for that spot continues to grow.

(b) **Director's Discretion:** When the Director exercises discretion to change the spot games eligible for a Jackpot Bonus prize, the Lottery will post notice of the Jackpot Bonus change on the Lottery's website at www.oregonlottery.org seven calendar days in advance of such change. Lottery may also announce the change by any other reasonable means.

(c) **Rollover:** When the Director exercises discretion to remove a spot game from eligibility for a Jackpot Bonus prize, the Director shall rollover any funds held in the prize pool for that spot game into any other Jackpot Bonus prize pools as determined by the Director.

(2) **Automatic Entry:** If a game play on a ticket is for a spot game that has been designated by the Director as eligible for a Jackpot Bonus prize, the ticket is automatically playing for the Jackpot Bonus prize described under subsection (1)(a) of this rule, as well as a prize under either OAR 177-099-0080 or OAR 177-099-0090. For example, if a Keno ticket with a 6-spot game play is the only Keno or Special Keno ticket to match 6 out of 6 of the winning numbers, that ticket, subject to ticket validation requirements, would win the top prize for the 6-spot under OAR 177-099-0080 (\$1,600) and the accumulated Jackpot Bonus prize for the 6-spot.

(3) **Division of Jackpot Bonus Prize Pool:** The prize money in the Jackpot Bonus prize pool for a specific spot for any given drawing is divided by the number of tickets winning the top prize for that spot under either OAR 177-099-0080 or OAR 177-099-0090. The Jackpot Bonus prize pool is divided among those winning tickets on a pro-rata basis determined by the amount that each winning ticket played in the drawing in which the Jackpot Bonus prize was won. For example, if one Keno ticket wins the top prize for the 8-spot (\$15,000) in a drawing, and was purchased for ten drawings at \$3 per drawing, and one Special Keno ticket wins the top prize for the 8-spot (\$25,000) in the same drawing, and was purchased for one drawing at \$1, the holder of the Keno ticket would receive 75% of the prize in the Jackpot Bonus prize pool for the 8-spot and the holder of the Special Keno ticket would receive the remaining 25% of the prize in that Jackpot Bonus prize pool.
