OAR 177-098-0020 Game Description

(1) General Information: Mega Millions® is a five out of seventy plus one out of twenty-five lottery game, drawn on the day(s), time(s) and location(s) as determined by the Mega Millions® Lotteries, and which pays the Jackpot Prize, at the election of the player made in accordance with these rules or by a default election made in accordance with these rules, either on a graduated annuitized annual pari-mutuel basis or as a cash value option using a rate determined by the Mega Millions® Finance Committee on a pari-mutuel basis. Except as provided in these rules, all other prizes are paid as a single lump sum payment. Mega Millions® winning numbers applicable to determine Mega Millions® prizes will be determined on the day(s), time(s), and location(s) as determined by the Mega Millions® lotteries. During a drawing event, five numbers shall be drawn from the first set of seventy numbers and one number shall be drawn from the second set of twenty-five numbers, which shall constitute the winning numbers.

(2) Selection of Numbers: To play the Mega Millions® game, a player shall select (or computer pick) five different numbers, from one through seventy and one additional number from one through twenty-five (the Mega ball). The additional number may be the same as one of the first five numbers selected by the player, as long as it is from one through twenty-five.

(3) Purchase of Tickets: Tickets can be purchased for two dollars (U.S. $2.00), either from a terminal operated by a retailer (i.e., a clerk-activated terminal) or from a terminal operated by the player (i.e., a player-activated terminal).

(a) Purchase from Retailer: If purchased from a retailer, the retailer will issue a ticket, via the terminal, containing the player’s selected set or sets of numbers or other indicia, each of which constitutes a game play. The player may select a set of five numbers from one to seventy and one additional number from one through twenty-five by:

(A) Marking six numbered squares in any one game board on a play slip and submitting the play slip to the retailer; or

(B) Requesting “Quick Pick” from the retailer.

(b) Player-activated Terminal: Tickets can be purchased from a player-activated terminal by use of a touch screen or by inserting a play slip into the machine.

(c) Future Drawings: A player may purchase tickets for future consecutive drawings up to the maximum permitted by the Lottery.

(4) Player Responsibility: It is the sole responsibility of the player to verify the accuracy of the game play or plays and other data printed on the ticket. A ticket may not be voided or canceled
by returning the ticket to the retailer or to the Lottery, including tickets that are printed in error. No ticket may be returned to the Lottery for credit. The placing of plays is done at the player’s own risk through the Lottery retailer, who when entering the play or plays is acting on behalf of the player. When the purchase of a ticket fails to complete because the ticket does not print, the player is responsible for notifying the retailer prior to the drawing(s) on the ticket to obtain a refund or a replacement ticket.

(5) **Entry of Plays:** Plays may be entered manually using a Lottery terminal keypad or touch screen or by means of a play slip as approved by the Lottery or by such other means as approved by the Lottery. Retailers cannot permit the use of play slips that are not approved by the Lottery. Retailers must not permit any device to be physically or wirelessly connected to a Lottery terminal to enter plays, except as approved by the Lottery.

(6) **Determination of Winning Numbers:** The winning numbers for the Mega Millions® game shall be determined at a drawing conducted under the supervision of the Mega Millions® Lotteries and the MUSL Board. Winning numbers shall be selected at random with the aid of mechanical drawing equipment or a random number generator. The Lottery Director shall designate a Drawing Manager who shall review and randomly observe the Mega Millions® game drawings conducted.

OAR 177-098-0040 Mega Millions® Prize Pool

(1) **Prize Pool:** The prize pool for all prize categories offered by the Party Lotteries shall consist of up to fifty-five percent of each drawing period's sales, inclusive of contributions to the prize pool accounts and prize reserve accounts, but may be higher or lower than fifty-five percent based upon the number of winners at each prize level, as well as the funding required to meet a guaranteed Annuity Jackpot Prize as may be required by OAR 177-098-0060(5).

(2) **Mega Millions® Prize Pool Accounts and Prize Reserve Accounts:** The Product Group shall set the contribution rates to the prize pool and one or more prize reserve or pool accounts it has established.

(a) **Prize Reserve Accounts:** The Product Group has established the following prize reserve accounts for the Mega Millions® game:

(A) The Prize Reserve Account, which is used to guarantee the payment of valid, but unanticipated, Jackpot Prize claims that may result from a system error or other reason, to fund deficiencies in the Set-Aside Pool, and to fund pari-mutuel prize deficiencies as defined and limited in OAR 177-098-0040(3)(c).

(b) **Prize Pool Accounts:** The Product Group has established the following prize pool accounts for the Mega Millions® games:

(A) The Grand Prize Pool, which is used to fund the current immediate Jackpot Prize;
(B) The Set Prize Pool, which is used to fund the set prizes. The Set Prize Pool holds the temporary balances that may result from having fewer than expected winners in the Set Prize categories. The source of the Set Prize Pool is the Party Lotteries’ weekly prize contributions less actual Set Prize liability; and

(C) The Set-Aside Pool, which is used to fund the payment of the awarded minimum starting annuity Jackpot Prizes and the minimum annuity Jackpot Prize increase, if necessary (subject to the limitations in these rules), as may be set by the Product Group. The source of the Set-Aside Pool funding shall accumulate from the difference between the amount in the Grand Prize Pool at the time of a Jackpot Prize win and the amount needed to fund Jackpot Prize payments as determined by the Mega Millions® lotteries;

(c) **Balance Limits:** The above prize reserve accounts shall have maximum balance amounts or balance limiter triggers that are set by the Product Group. The maximum balance amounts and balance limiter triggers are subject to review by the MUSL Board Finance and Audit Committee. The Finance and Audit Committee shall have two weeks to state objections, if any, to the approved maximum balance amounts or balance limiter triggers. Approved maximum balance amounts or balance limiter triggers shall become effective no sooner than two weeks after notice is given to the Finance and Audit Committee and no objection is stated or sooner if the Committee affirmatively approves the maximum balance amounts or balance limiter triggers. The Product Group may appeal the Committee’s objections to the full Board. Group approved changes in the maximum balance amounts or balance limiter triggers set by the Product Group shall be effective only after the next Jackpot Prize win.

(d) **Contribution Rate:** The contribution rate to the Grand Prize Pool from Mega Millions® is 37.6509 percent of sales. An amount up to five percent of a Party Lottery’s sales, shall be added to a Party Lottery’s Mega Millions® Prize Pool contribution and placed in trust in one or more prize pool and prize reserve accounts held by the Product Group at any time that the Party Lottery’s share of the Prize Reserve Account is below the amounts designated by the Product Group.

(e) **Balances:** The Product Group may determine to expend all or a portion of the funds in the prize pool accounts (except the Grand Prize Pool) and the prize reserve accounts as follows:

(A) For the purpose of indemnifying the Party Lotteries in the payment of prizes to be made by the Selling Lotteries; and

(B) For the payment of prizes or special prizes in the game; limited to prize pool and prize reserve contribution from lotteries participating in the special prize promotion, subject to the approval of the MUSL Board’s Finance and Audit Committee or that Committee’s failure to object after being given two weeks’
notice of the planned action, which actions may be appealed to the full Board by the Product Group.

(f) Adjustments: The prize reserve shares of a Party Lottery may be adjusted with refunds to the Party Lottery from the prize reserve account(s) as may be needed to maintain the approved maximum balance and sales percentage shares of the Party Lotteries.

(g) Sales Percentage Share: A Party Lottery may contribute to its sales percentage share of prize reserve accounts over time, but in the event of a draw down from a reserve account, a Party Lottery is responsible for its full sales percentage share of the prize reserve account, whether or not it has been paid in full.

(h) Remaining Balances: Any amount remaining in the Mega Millions® prize pool accounts or prize reserve accounts when the Product Group declares the end of the Mega Millions® game shall be returned to the lotteries participating in the prize pool and prize reserve accounts after the end of all claim periods of all Selling Lotteries, carried forward to a replacement game, or otherwise expended in a manner at the election of the individual Members of the Product Group in accordance with the laws of the jurisdiction.

(3) Expected Prize Payout Percentages: The Jackpot Prize payout shall be determined on a pari-mutuel basis. Except as otherwise provided in these rules, all other prizes awarded by party lotteries shall be paid as single payment prizes. All prize payouts are made with the following expected prize payout percentages, which does not include any additional amount contributed to or held in prize reserves, although the prize payout percentages per draw may vary:

* The Jackpot Prize shall include the Mega Millions® Prize Pool percentage allocated to the Grand Prize combined with the Just the Jackpot™ Prize Pool percentage allocated to the Jackpot Prize.

(a) **Division of Jackpot Prize among Winners:** The Jackpot Prize amount shall be divided equally by the number of game tickets winning the Jackpot Prize.

(b) **Set Prizes:** The Set Prize Pool (for payment of single payment prizes of $1,000,000 or less) shall be carried forward to subsequent draws if all or a portion of it is not needed to pay the Set Prizes awarded in the current draw.

(c) **Pari-Mutuel Prize Determinations:**

(A) **Available Resources:** Except as otherwise provided for in OAR 177-098-0110(10)(c), if the total of the Mega Millions® Set Prizes (as multiplied by the respective Megaplier® multiplier if applicable) awarded in a drawing exceeds the percentage of the prize pool allocated to the Mega Millions® Set Prizes, then the amount needed to fund the Mega Millions® Set Prizes, including Megaplier® prizes, awarded shall be drawn from the following sources, in the following order:

   (i) The amount available in the Set Prize Pool and the Megaplier® Prize Pool, if any;

   (ii) An amount from the Prize Reserve Account described in section (2) of this rule, if available, not to exceed $40,000,000 per drawing.

(B) **Lack of Sufficient Prize Funds:** If, after these sources are depleted, there are not sufficient funds to pay the Set Prizes awarded, including Megaplier® prizes, then the highest Set Prize shall become a pari-mutuel prize. If the amount of the highest Set Prize, when paid on a pari-mutuel basis, drops to or below the next highest Set Prize and there are still not sufficient funds to pay the remaining Set Prizes awarded, then the next highest Set Prize shall become a pari-mutuel prize. This procedure shall continue down through all Set Prize levels, if necessary, until all Set Prize levels become pari-mutuel prize levels. In that instance, the money available from the funding sources listed in this rule shall be divided among the tickets with winning game plays in proportion to their respective prize percentages. Mega Millions® and Megaplier® prizes will be reduced by the same percentage.
(C) **Independent Calculations:** By agreement with the Mega Millions® Lotteries, the Mega Millions® Lotteries shall independently calculate their set pari-mutuel prize amounts. The Party Lotteries and the Mega Millions® Lotteries shall then agree to set the pari-mutuel prize amounts for all lotteries selling the game at the lesser of the independently-calculated prize amounts.

(4) **Advertised Jackpot Prize Annuity Amount:** Except as required by OAR 177-098-0060 the official advertised Jackpot Prize annuity amount is subject to change based on sales forecasts and/or actual sales.

(5) **Changes to Prize Categories:** The number of prize categories and the allocation of the prize fund among the prize categories may be changed at the discretion of the Mega Millions® Lotteries, for promotional purposes. Such change shall be announced by the Lottery prior to the drawing to which the change applies.

**OAR 177-098-0050 Probability of Winning Mega Millions® Prizes**

(1) **Selection of Payment Type:** Jackpot Prizes shall be paid, at the election of the player made no later than 60 days after validation of the prize, with either a per winner annuity or single lump sum payment. If the payment election is not made by the player within 60 days after validation, then the prize shall be paid as an annuity prize. The election to take the single lump sum payment may be made at the time of validation of the prize claim or within 60 days thereafter. An election made after validation is final and cannot be revoked, withdrawn or otherwise changed.

(2) **Share of the Jackpot Prize:** Shares of the Jackpot Prize shall be determined by dividing the amount available in the Grand Prize Pool equally among all tickets with winning game plays of the Jackpot Prize in all participating lotteries. The prize money allocated from the current Mega Millions® Grand Prize Pool for the Jackpot Prize, plus any previous portions of prize money allocated to the Jackpot Prize category in which no matching tickets were sold will be divided equally among all Jackpot Prize winning tickets in all participating lotteries.

(3) **Lump Sum Payment:** Jackpot Prize winner(s) who elect a lump sum payment (cash value option) shall be paid their share(s) in a single lump sum payment. The lump sum payment amount shall be determined by the Mega Millions® lotteries. The lump sum payment shall be paid upon completion of all internal validation procedures. Prize payments may be rounded down to the nearest $1,000.

(4) **Initial and Annual Annuitized Payments:** All annuitized prizes shall be paid in graduated annual payments. The annuity option Jackpot Prize amount will be paid in thirty graduated annual installments. The initial payment shall be paid upon completion of all internal validation procedures. The subsequent twenty-nine payments shall be paid graduated annually to coincide with the month of the Federal auction date at which the bonds were purchased to fund the annuity, with graduated annual installments defined in the Mega Millions® Lotteries’ Finance and Operations Procedures. Payments shall escalate by a factor of five percent annually, and annual payments shall be rounded down to the nearest even one thousand dollar increment. All such payments shall be made within seven days of the anniversary of the annual auction date.

(5) **Jackpot Prizes and Increases:** The Mega Millions® lotteries may set a minimum guaranteed annuity Jackpot Prize amount, which shall be advertised by the selling lotteries as the starting guaranteed annuity Jackpot Prize amount.

(6) **Roll Over of Jackpot Prize:** If in any Mega Millions® drawing there are no Mega Millions® plays which qualify for the Jackpot Prize category, the portion of the prize fund allocated to such Jackpot Prize category shall remain in the Jackpot Prize category and be added to the amount allocated for the Jackpot Prize category in the next consecutive Mega Millions® drawing.
(7) **Funding the Annuity:** Funds for the initial payment of an annuitized prize or the lump sum prize shall be made available by MUSL for payment by the Party Lottery on a schedule approved by the Product Group. If individual shares of the Grand Prize pool funds held to fund an annuity is less than $250,000, the Product Group, in its sole discretion, may elect to pay the winners their share of the held in the Grand Prize Pool. Neither MUSL nor the party lotteries shall be responsible or liable for changes in the advertised or estimated annuity prize amount and the actual amount purchased after the prize payment method is actually known to MUSL.

(8) **Lack of Available Funds:** If necessary, when the due date for the payment of a prize occurs before the receipt of funds in the prize pool trust sufficient to pay the prize, the transfer of funds for the payment of the full lump sum cash amount may be delayed pending receipt of funds from the Party Lotteries or other lotteries participating in the Mega Millions® Game. A Party Lottery may elect to make the initial payment from its own funds after validation, with notice to MUSL.

(9) **Death of Winner:** In the event of the death of a lottery winner during the annuity payment period, unless prohibited by state law, the MUSL Finance & Audit Committee, in its sole discretion excepting a discretionary review by the Product Group, upon the petition of the estate of the lottery winner (the "Estate") or the persons identified on the winner’s Beneficiary Designation form (BDF), whichever is applicable, to the state lottery of the state in which the deceased lottery winner purchased the winning ticket, and subject to applicable federal, state, or district laws, may make payment to the Estate or the designated beneficiary of the discounted present value of the remaining annuitized prize payments. If such a determination is made, then securities and/or amounts held to fund the deceased lottery winner’s annuitized prize may be distributed to the Estate or the persons on the BDF. The identification of the securities to fund the annuitized prize is at the sole discretion of the Finance & Audit Committee or the Product Group.

(10) **No Recourse:** If a party lottery purchases or holds the prize payment annuity for a prize won in that jurisdiction, that party lottery’s game rules, and any prize payment agreement with the prize winner, shall indicate that the prize winner has no recourse on MUSL or any other party lottery for payment of that prize.

(11) **Prize Payments:** All prizes are paid through the Lottery that sold the winning ticket(s), and at the discretion of the Selling Lottery may be paid by cash, check, warrant, or electronic transfer. The Lottery may begin paying low-tier prizes after receiving authorization to pay from the MUSL central office.

(12) **Rounding of Prize Payments:** Annuitized payments of the Jackpot Prize or a share of the Jackpot Prize may be rounded to facilitate the purchase of an appropriate funding mechanism. Breakage on an annuitized Jackpot Prize win shall be added to the first payment to the winner or winners. Prizes other than the Jackpot Prize which, under these rules, may become single-payment, pari-mutuel prizes, may be rounded down so that prizes can be paid in multiples of whole dollars. Breakage resulting from rounding these prizes shall be carried forward to the prize pool for the next drawing.
(13) **One Prize per Game Play:** The holder of a winning ticket may win only one prize per game play in connection with the winning numbers drawn, and shall be entitled only to the prize won by those numbers in the highest matching prize category. All liability for a Mega Millions® prize is discharged upon payment of a prize claim.

(14) **Claim Expires in One Year:** Claims for all prize categories, including the Jackpot Prize, shall be submitted within one year after the date of the drawing in accordance with these rules and OAR 177-070-0025(3).

**OAR 177-098-0070 Ticket Validation**

(1) **Validation Requirements:** To be a valid ticket and eligible to receive a prize, a Mega Millions® ticket shall satisfy all the requirements established by Lottery for validation of winning Mega Millions® tickets sold through Lottery’s computer gaming system and any other validation requirements adopted by the Product Group, the MUSL Board and any other requirements published as the Confidential MUSL Minimum Game Security Standards. The Lottery and MUSL are not responsible for tickets which are altered in any manner (or which fail to print except as provided in OAR 177-098-0020(4)). When a winning Mega Millions® ticket is submitted to the Lottery for validation along with the Lottery’s completed claim form, and the Lottery has initiated the validation procedures, the Lottery retains possession of the winning ticket and claim form.

(2) **Mega Millions® Ticket Required:** Under no circumstances will a claim be paid for either the Jackpot Prize or a lower tier set prize without an official Mega Millions® ticket matching all game play, serial number and other validation data residing in Lottery’s computer gaming system and such ticket shall be the only valid proof of the wager placed and the only valid receipt for claiming or redeeming such prize.

(3) **Additional Validation Requirements:** In addition to the validation requirements set forth in sections (1) and (2) of this rule, in order to be deemed a valid, winning Mega Millions® ticket, all of the following conditions must be met:

(a) The validation data must be present in its entirety and must correspond, using the computer validation file, to the number selections printed on the ticket for the drawing date(s) printed on the ticket;

(b) The ticket must be intact;

(c) The ticket must not be mutilated, altered, reconstituted, or tampered with in any manner;

(d) The ticket must not be counterfeit or an exact duplicate of another winning ticket;

(e) The ticket must have been issued by a Lottery retailer authorized to sell Mega Millions® tickets on official paper stock of the Lottery;
(f) The ticket must not have been stolen, to the knowledge of the Lottery;

(g) The ticket must be submitted for payment in accordance with these rules.

(h) The ticket data must have been recorded on the Lottery’s computer gaming system prior to the drawing and the ticket data must match this computer record in every respect. In the event of a contradiction between information as printed on the ticket and as accepted by the Lottery’s computer gaming system, the wager accepted by the Lottery’s computer gaming system shall be the valid wager;

(i) The player or computer pick number selections, validation data and the drawing date(s) of an apparent winning ticket must appear on the official file of winning tickets, and a ticket with that exact data must not have been previously paid;

(j) The ticket must not be misregistered, defectively printed, or printed or produced in error to an extent that it cannot be validated by the Lottery;

(k) The ticket must pass validation tests using a minimum of three of the five validation methods as defined in the Mega Millions® Finance and Operations Procedures, Section 15. In addition, the ticket must pass all other confidential security checks of the Lottery;

(l) In submitting a Mega Millions® ticket for validation, the claimant agrees to abide by applicable laws, all rules and regulations, instructions, conditions and final decisions of the Lottery Director;

(m) There must not be any other breach of these Mega Millions® Rules in relation to the ticket, which, in the opinion of the Lottery Director, justifies invalidation; and

(n) The ticket must be submitted to the Lottery.

OAR 177-098-0110 Megaplier®

(1) General: The Mega Millions® Megaplier® promotion is an optional, limited extension of the Mega Millions® Game described in OAR Division 98. The Lottery Director, in the Lottery Director’s sole discretion and based on agreements with MUSL, is authorized to initiate and terminate the Megaplier® option.

(2) Set Prizes Only: Megaplier® offers to the owner of a qualifying play a chance to multiply or increase the amount of any of the lump sum Set Prizes (the prizes normally paying $2 to $1,000,000) won in a drawing held during the promotion. The Jackpot Prize is not a Set Prize and will not be multiplied or increased by means of the Megaplier® promotion.

(3) Qualifying Play: A qualifying Megaplier® option play is any single Mega Millions® Play for which the player selects the Megaplier® option on either the Play Slip or by selecting the Megaplier® option through a clerk-activated or player-activated terminal, pays one extra dollar
for the Megaplier® option play, and which is recorded at the Party Lottery’s computer gaming system as a qualifying Megaplier® play.

(4) Prizes to be Increased: Except as provided in these rules, a qualifying Megaplier® play which wins one of the lump sum Set Prizes will be multiplied by the number drawn (either 2, 3, 4, or 5), in a separate random Megaplier® drawing announced in a manner determined by the Product Group.

(5) Selection of Multiplier®: MUSL will either itself conduct, or authorize a U.S. Lottery to conduct on its behalf, a separate random Megaplier® drawing. Before each Mega Millions® drawing a single number (2, 3, 4, or 5) shall be drawn. The Mega Millions® Product Group may change one or more of the multiplier features for special promotions from time to time. In the event the Megaplier® drawing does not occur prior to the Mega Millions® drawing, the multiplier number will be a 5, which shall solely be determined by the lottery authorized to conduct the Megaplier® drawing.

(6) Megaplier® Prize Pool:

(a) General: The Megaplier® Prize Pool has been established by the Product Group and is used to fund Megaplier® prizes. The Megaplier® Prize Pool holds the temporary balances that may result from having fewer than expected winning Megaplier® plays. The source of the Megaplier® Prize Pool consists of the Party Lottery’s weekly prize contributions less actual Megaplier® Prize liability.

(b) Percentage: Up to fifty-five percent of each drawing period's sales, as determined by the Product Group, shall be collected for the payment of Megaplier® prizes.

(c) Prize Payout: Prize payout percentages may vary. The Megaplier® Prize Pool shall be carried forward to subsequent draws if all or a portion of it is not needed to pay the Megaplier® prizes awarded in the current draw and held in the Megaplier® Prize Pool.

(d) End of Game: Any amount remaining in the Megaplier® Prize Pool when the Product Group declares the end of this game shall be returned to the lotteries participating in the Megaplier® Prize Pool after the end of all claim periods of all Selling Lotteries, carried forward to a replacement game, or expended in a manner at the election of the individual members of the Product Group in accordance with jurisdiction law.

(7) Expected Prize Payout: Except as otherwise provided in these rules, all prizes awarded shall be paid as lump sum Set Prizes. Instead of the Mega Millions® Set Prize amounts, qualifying Megaplier® plays will pay the amounts shown below when matched with the Megaplier® number drawn:

| Megaplier® Prize Amount 
with Megaplier® Purchase |
Prize Levels | Set Prize Amount | 2X | 3X | 4X | 5X  
---|---|---|---|---|---
Match 5 | $1,000,000 | $2,000,000 | $3,000,000 | $4,000,000 | $5,000,000  
Match 4 + Mega Ball | $10,000 | $20,000 | $30,000 | $40,000 | $50,000  
Match 4 | $500 | $1,000 | $1,500 | $2,000 | $2,500  
Match 3 + Mega Ball | $200 | $400 | $600 | $800 | $1,000  
Match 3 | $10 | $20 | $30 | $40 | $50  
Match 2 + Mega Ball | $10 | $20 | $30 | $40 | $50  
Match 1 + Mega Ball | $4 | $8 | $12 | $16 | $20  
Match Mega Ball | $2 | $4 | $6 | $8 | $10  

The Megaplier® promotion and multiplier numbers do not apply to the Mega Millions® Jackpot Prize.

In certain rare instances, the Mega Millions® Set Prize amount may be less than the amount shown. In such case, the Megaplier® prizes will be a multiple of the changed Mega Millions® prize amount announced after the draw. For example, if the Match 4+1 Mega Millions® Set Prize amount of $10,000 becomes $2,000 under the rules of the Mega Millions® game, then a Megaplier® player winning that prize amount with a 4X multiplier would win $8,000 ($2,000 x 4).

(8) Probability of Winning: The following table sets forth the probability of the various Megaplier® numbers being drawn during a single Mega Millions® drawing. The Product Group may elect to run limited promotions that may modify the multiplier features.

(9) **Prize Pool Carried Forward:** The prize pool percentage allocated to the Megaplier® Set Prizes shall be carried forward to subsequent draws if all or a portion of it is not needed to pay the Set Prizes awarded in the current draw or may be held in a prize reserve account.

(10) **Pari-Mutuel Prizes - All Prize Amounts:** Except as otherwise provided in OAR 177-098-0110(10)(c):

(a) **Available Resources:** If the total of the original Mega Millions® Set Prizes and the Megaplier® prize amounts awarded in a drawing exceeds the percentage of the prize pools allocated to the Set Prizes, then the amount needed to fund the Set Prizes (including the Megaplier® prize amounts) awarded shall be drawn from the following sources, in the following order:

(A) The amount available in the Set Prize Pool and the Megaplier® Prize Pool, if any.

(B) An amount from the Mega Millions® Prize Reserve Account, if available in the account, not to exceed $40,000,000 per drawing.

(b) **Pari-Mutuel Conversion:** If, after these sources are depleted, there are not sufficient funds to pay the Set Prizes awarded (including Megaplier® prize amounts), then the highest Set Prize (including the Megaplier® prize amounts) shall become a pari-mutuel prize. If the amount of the highest Set Prize, when paid on a pari-mutuel basis, drops to or below the next highest Set Prize and there are still not sufficient funds to pay the remaining Set Prizes awarded, then the next highest Set Prize, including the Megaplier® prize amount, shall become a pari-mutuel prize. This procedure shall continue down through all Set Prize levels, if necessary, until all Set Prizes become pari-mutuel prize levels. In that instance, the money available from the funding sources listed in this rule shall be divided among the tickets with winning game plays in proportion to their respective prize percentages. Mega Millions® and Megaplier® prizes will be reduced by the same percentage.

(c) **Independent Calculations:** By agreement with the Mega Millions® Lotteries, the Mega Millions® Lotteries shall independently calculate their set pari-mutuel prize amounts, including the Megaplier® prize amounts. The Party Lotteries and the Mega Millions® Lotteries shall then agree to set the pari-mutuel prize amounts for all lotteries selling the game at the lesser of the independently calculated prize amounts.

(11) **Prize Payment:** All Megaplier® prizes shall be paid in one single payment through the Party Lottery that sold the winning ticket(s). The Lottery may begin paying Megaplier® prizes after receiving authorization to pay from the MUSL central office.

(12) **Prizes Rounded:** Prizes, which under these rules may become pari-mutuel prizes, may be rounded down so that prizes can be paid in whole dollars. Breakage resulting from rounding these prizes shall be carried forward to the Megaplier® Prize Pool for the next drawing.
(1) **General:** The Mega Millions® Just the Jackpot™ promotion is a limited extension of the Mega Millions® game and is conducted in accordance with the MUSL Mega Millions® Product Group game rules. The Oregon State Lottery Commission has elected not to offer the Just the Jackpot™ promotion. The Just the Jackpot™ promotion will impact the amount of the Jackpot Prize in the Mega Millions® game, and participants in the Just the Jackpot™ promotion in other lottery jurisdictions may win the Mega Millions® Jackpot Prize.
