177-081-0010 Game Description

(1) Pick 4 is a game based on four-digit numbers in which a player selects:

(a) A single number from each of four columns of single-digit numbers from zero to nine. The player has the option of selecting a Quick Pick or choosing his or her own number selections;

(b) One or more Match Choices from the seven possible Match Choice options; and

(c) A wager of at least \$1.00.

(2) The player's four number selections form a specific four-digit number sequence from left to right. The player's number selections and subsequent Match Choices which match the winning numbers and the order of the winning numbers in accordance with OAR 177-081-0080(1) selected at the drawing(s) on the date(s) indicated on the player's ticket determine any prize amount won.

(3) An offer to buy and an offer to sell a Pick 4 Ticket shall be made only at a location which has a contract with the Lottery to sell On-Line games, as defined in OAR 177-070-0005(3).

177-081-0020 Price

The price of a ticket shall be determined by the amount of money a player chooses to wager on the game play selected, multiplied by the number of drawings in which the ticket will be played.

(1) The price of a ticket for a single drawing purchased through a clerk-operated terminal shall range from a minimum of \$1.00 to a maximum of \$7.00 in \$.50 increments.

(2) The price of a ticket for a single drawing purchased through a player-operated terminal shall range from a minimum of \$1.00 to a maximum of \$7.00 in \$1.00 increments. When a player requests a Quick Pick from a player-operated terminal the only wager possible is \$1.00.

(3) A player may purchase a ticket for a single drawing or for up to a maximum of twelve consecutive drawings. The price of a ticket is determined by multiplying the number of drawings in which the ticket will be played by the total wager for each drawing. The minimum ticket price for a ticket containing consecutive drawings is \$2.00 (\$1 x 2 consecutive drawings = \$2). The maximum ticket price for a ticket containing consecutive drawings is \$84 (\$7 x twelve consecutive drawings = \$84). A game slip indicating a price of less than \$1.00 or greater than \$84.00 shall be automatically rejected by the terminal. Expansion of the number of consecutive drawings from seven to twelve applies retroactively to 1:00 P.M. February 11, 2002.

(4) Notwithstanding sections (1) through (3) of this rule, the price of a ticket for consecutive drawings purchased through a player-operated terminal shall range from a minimum of \$2.00 to a maximum of \$84.00 and must be in whole dollar amounts. For example, a \$1.50 wager placed for two consecutive drawings equals a viable \$3.00 total game play wager.

177-081-0030 Ticket Purchase, Characteristics, and Restrictions

(1) Pick 4 tickets may be purchased everyday of the year during the hours of operation of the Lottery's On-Line game system and a Lottery retailer's business hours of operation.

(2) Ticket purchase: Tickets may be purchased either from a terminal operated by a retailer, i.e., a clerk-operated terminal, or from a terminal operated by the player, i.e., a player-operated terminal. To play Pick 4, a player must either:

(a) Complete a game slip for input into a clerk-operated terminal or player-operated terminal;

(b) Request a Quick Pick or manual numbers selection from a clerk; or

(c) Request a Quick Pick using a player-operated terminal.

(3) Completing a game slip:

(a) A player must choose a game play by one of two methods:

(A) A player must select four numbers, one each from four columns of numbers from zero to nine on the game slip; or

(B) The player may select the Quick Pick option.

(b) A player must also complete the selection of the Match Choice option(s) on the game slip.

(c) A player must indicate if the game play is for consecutive drawings.

(4) Purchasing a ticket from a clerk-operated terminal:

(a) After the player completes a game slip and submits it along with the price of the ticket to the clerk, the clerk shall use the terminal to issue a ticket to the player.

(b) Alternately, the player may request that a clerk, without using a game slip, electronically submit a player's game play request through the terminal for a Quick Pick number selection or manually enter the player's four numbers, and request game play for a single drawing or consecutive drawings. A wager submitted by a clerk through the terminal without a game slip can only be made on the Easy 4 Combo Match Choice.

(5) A player may purchase a ticket from a player-operated terminal by following the instructions appearing on the screen of the terminal. Once the player has completed the game slip and inserted it and paid the price of the ticket into the terminal, the terminal will issue a ticket to the player. The player may also request a Quick Pick without using a game slip by using the player-operated terminal. A player requesting a Quick Pick from a player-operated terminal without

using a game slip must play the Easy 4 Combo Match Choice and the number of consecutive drawings to be played.

(6) **Ticket Restrictions:** A player cannot place an "All 4 In Any Order" wager when all 4 numbers are the same, a "First 3 In Any Order" wager when all 3 numbers are the same, or a "Last 3 In Any Order" wager when all 3 numbers are the same. Any of the aforementioned shall be automatically rejected by the terminal.

177-081-0040 Cancellation of Tickets

(1) A player may cancel a Pick 4 ticket for a single drawing or consecutive drawings. To cancel a ticket, a player must follow the procedure in OAR 177-046-0060.

177-081-0050 Drawings

(1) Effective February 11, 2002, drawings shall generally occur 7-days a week at 1:00 p.m., 4:00 p.m., 7:00 p.m. and 10:00 p.m. or as otherwise authorized by the Director. Each drawing shall randomly select a specific sequence of four numbers, each from zero to nine. The winning numbers selected at each drawing shall be generated through the use of a computer-driven random number generator.

177-081-0060 Ticket Validation Requirements

(1) For a ticket to be valid and eligible to receive prize payment, the requirements in OAR Chapter 177 must be met:

(2) A game ticket containing a winning game play and purchased for play in consecutive drawings may be validated prior to the occurrence of future drawings for which the game ticket was purchased. An exchange ticket shall be issued, at the time the original game ticket is validated, for the remainder of the drawings appearing on the validated game ticket.

(2)(a) When the potential, aggregate Pick 4 prize liability resulting from all wagers containing a particular combination of numbers reaches or first exceeds \$500,000 in a single drawing, then no further wagers of that number combination shall be accepted by the Lottery gaming system for that drawing.

(b) Notwithstanding subsection (a) of this section, the Director may, when conditions so warrant as determined in the Director's sole discretion, establish a prize liability threshold that is higher than \$500,000 for a single drawing. The Director shall not raise the prize liability limit for a particular drawing once wagers have been curtailed because the prize limit has been reached for that drawing.

(3) The number of prizes for Pick 4 is not pre-determined by the Lottery. The overall prize-percentage payout for Pick 4 prizes is estimated at 60% over time, but the actual prize payout may vary from day-to-day and year-to-year, due to factors that include, but are not limited to, the number of players participating each day and the number of winning wagers.

(4) In the event of a dispute over the determination of a prize, the Lottery's determination is controlling.

(5) Each prize-winning player will be paid in one lump sum.

(6) For each drawing, a player may have more than one winning combination on a single ticket depending on the game play and match choice selected. However, when the Easy 4 Combo Match Choice is selected the player shall receive only the highest single prize for which the player is eligible.
